## **01 PROFILE**

I am a self-taught software developer with 7 years of experience with proficiency in Flutter/Dart, Rust, C#, Git, and Linux. When I discovered Flutter, I fell in love with its multi-platform capabilities and have used Flutter in plenty of projects. I am an active contributor to open source projects, consistently fixing issues, adding new features, or creating my own projects to help other developers. I am confident that my expertise and my passion for creating innovative solutions would add great value to your team.
