

Erikas Taroza

PROFILE

I am an experienced software developer with a diverse set of skills including Flutter/Dart, web development, Git, and Linux. My journey in software development is marked by my drive to constantly grow my skills and my commitment to excellence. I am also an active contributor to the open-source community. I maintain my own projects as well as help fix various bugs in other open-source projects. These contributions are proof of my skills and also showcase my dedication to supporting fellow developers.
